

YOUR HOST FAMILY

Your names :

Information you have to ask your host family :

Put your MP3 players on the table in front of you, start the recording and stop it **ONLY** when you've asked all your questions and you have the answers.

Don't make your family read the questions on the paper but **ASK** them **orally** (I want to hear your voices on the recording!)

Please ask them if they agree to sign the authorization form to use their voice so that we can work on the recordings in class.

This will be a wonderful way of remembering your host family.

☛ Don't forget to thank them for answering your questions

FIRST NAMES?
